Repair Form

IMPORTANT: Please print and fill out this form
and include it when sending a watch for repair.

Name: _____ Date: _____

Address: _____ City: _____ State: _____ Zip: _____

Home Phone: _____ Business: _____ Cell Phone: _____

Email: _____

Value of the watch (for return insurance): _____

If no value is specified, we will automatically assign a value of \$200.

Brand of Watch: _____

Issue with watch: _____

Estimate Requested: Yes No

If neither box is checked, we will assume that you are NOT requesting an estimate.

Methods of mailing:

We strongly suggest that you use the US Postal Service. For high value items (\$1000 or more), Registered mail is the best method. This requires paper tape on the exterior of the box only. No clear tape. For modest value items, ship first class US mail, insured for the amount you require and if you prefer, add return receipt to be sent to you when we receive your watch. Please send nothing more than your timepiece. Chains, fobs, extra straps, original boxes and the like are not required.

We are no longer accepting repair work from overseas locations.

We will notify you within 7-10 business days upon receipt of the watch with an estimate.
